sunny yellow

The latest interiors get a splash of sunshine for bold seasonal style.

Whether it's the odd burst of vibrant shade or an action-packed scheme that does glorious tint in abundance, not-so-mellow yellow is the hue for many a style-savvy homeowner this time of year.

From super-glossy kitchen surfaces to zingy accessories on the breakfast table, zesty lemon offers a fresh feel to uplift the spirits daily. Or why not invest in a punchy pendant for further pizzazz?

Inject a ray – or two – of sunshine into the bathroom by way of tantalising tiles, a bold-is-best basin and gleaming tap combo or a chic showering column.

Craving a dazzling boudoir décor? Opt for a bright bed frame offset by a monochrome or neutral backdrop. Add luminous linens to ensure all-round radiance. From glam golds to citrus splendour, it's the perfect palette for the sunny season ahead!
