New Go Modern collection for the designer garden

Tuesday, 10 Mar 2009 14:37

If you're thinking of adding some designer pieces to your garden this year then aboutproperty's 'Pick of the week' could be right up your street.

Go Modern, specialists in contemporary furniture design, have launched their new Spring collection of exteriors furniture, with some unusual pieces to tempt you.

Our favourites include the 'Roses' garden armchair (below); a lacey metal chair with floral detail – available in black or white lacquer, and the free standing pillar fire (below), perfect in the garden, patio or by the pool.

The pillar fire was recently seen in Paris Hilton's British Mansion in her new reality TV show. Burning a safe, bio-ethanol fuel, the pillar uses an EcoSmart flueless flame.

Go Modern's new collection of furniture, lighting and home accessories, can be seen at [Go Modern](#) or to view the collection in person visit Go Modern's showroom in Lots Road, Chelsea.

The free standing pillar fire to brighten up your garden
